

# DECORATED APPAREL PRODUCT GUIDE

## USING THIS PRODUCT GUIDE

Decorated Apparel Product Guide is an interactive, hyperlinked, searchable digital publication in PDF format. For full functionality, read this newsletter using Adobe Acrobat, not your Internet browser or e-mail program. If you're not reading this newsletter in Adobe, [click here](#) to save it to your computer. Then reopen it with Adobe Acrobat.

Click on product photos to link directly to Web sites. This newsletter will stay open, and a browser will open separately.

If you have any questions about how to navigate, e-mail Chaundra Louard at [newproduct@IMPRESIONSmag.com](mailto:newproduct@IMPRESIONSmag.com).

## INK-CREDIBLE

You can't prepare a good meal without the proper spices. Likewise, how could you screen print without the right materials? Because ink is the vital ingredient to the screen printing recipe, we've put together a grocery list of sorts for you. Enjoy your shopping.

### Ace Transfer Co.

AceFlex hot-peel transfer inks are made to transfer onto 100% polyester and cotton or 50% cotton/50% polyester and are available in 43 standard colors, including white. The transferred inks have a soft hand and high-opaque coverage, according to the company.

### Chromaline

Chroma/Glo plastisol inks are offered in three varieties: Glow-in-the-Dark, PhotoChromatic and ThermoChromatic. Sunlight and heat cause these inks to change colors. Glow-in-the-Dark formulas are available in three grades from economical to longer-lasting supercharge.

Use the navigation bar at the bottom for the following functions:

- To change pages
- To return to the cover
- To toggle your view of Adobe Acrobat
- To print the magazine
- To search the magazine for a keyword
- To save the magazine to your computer
- To close this magazine (and Adobe Acrobat)

## CRS

This PC-series process plastisol ink is designed for four-color process prints. The finely milled colors let ink pass through fine mesh easily, according to the company. Colors are permanently transparent, and the ink has a satin finish.

## Lancer Group Intl.

Excalibur 596 Miracle white plastisol ink offers high-bleed resistance. The ink contains no bleach, is available in a phthalate-free formula and produces no fumes. Excalibur 596 is ideal for 50% cotton/50% polyester and 100% polyester.

## One Stop

Union Ink's Diamond White (UL-PLHT-1070) ink is a smooth, high-opacity, low-bleed plastisol for polyester-blended fabrics. The ink provides low after-flash tack and improved viscosity stability. It was designed for use as an under-base or highlight white.

## Wilflex

Amazing Base is a high-opaque, neutral base featuring a matte finish for application on cotton garments. The company says the material has excellent flash properties, as well as improved elongation and build-up resistance.

## Rutland

Blister Base (MP0231) is a specialty ink that, when combined with high oven temperatures, creates a variety of "blister" effects once the ink has cured, according to the company.

## Union Ink Co.

Diamond White plastisol ink is a high-opacity, low-bleed white plastisol ink designed to control dye migration on polyester-blended fabrics. This bleed-resistant, ready-to-use ink features improved viscosity stability and fast flashing with low tack.
